- Frontend & Backend Development
- Coding Languages
- Attention to detail
- Logical Approach
- Creative Ability

ABOUT ME

Motivated and self-taught web developer with a strong foundation in front-end and back-end technologies. Eager to apply my skills in a professional setting while continuing to learn and grow in web development. Passionate about creating responsive and user-friendly web applications.

SKILLS

- **Languages**: HTML5, CSS3, JavaScript, Python, C++
- **Frameworks/Libraries:** React, Node.js, Express.js, Bootstrap
- **Database Management:** MongoDB
- **Version Control:** Git, GitHub
- **Tools:** Visual Studio Code, Postman, Chrome DevTools
- **Design Skills:** Responsive Design, UI/UX principles, Wireframing

PERSONAL PROJECTS

Portfolio Website
"https://github.com/Arshanashraf/my-portfolio-website/tree/master"
Developed a dynamic portfolio website showcasing my web development projects using React, Tailwind CSS, and Bootstrap. Implemented 3D animations and parallax effects for a visually engaging user experience. Utilized React Router for seamless navigation and hooks for managing state and side effects, demonstrating a strong understanding of modern web development practices.

ApexBot (AI powered ChatBot)
"https://apexbot.netlify.app/r"
Developed an AI-powered chatbot website using React.js, Vite, Tailwind CSS, Redux, and the Hugging Face API, deployed on Netlify and Hugging Face Spaces with version control through Git and GitHub..

Personal Blog Website
"https://github.com/Arshanashraf/megaBlog-react-appwrite/tree/master"
Created a personal blog platform using React, Appwrite for data handling, and various tools including Redux and React Router. Utilized hooks for state management and lifecycle methods, ensuring a seamless user experience. Designed a clean and responsive layout, allowing users to write and manage posts effortlessly.

WORK EXPERIENCE

Front-End Developer Intern at DevelopersHub.co (Currently two weeks)
As an intern in this six weeks internship program, I've developed a fully functional e-commerce website with features like product filtering, search, pagination, add-to-cart functionality using Redux, and an order summary page. Deployed on Netlify.
